\*\* These price apply to F/ G Dock only

Vessel length may not exceed the length of the assigned slip by more than 10%.

Example: (60ft slip x 10%= 6ft, max vessel size in 60ft slip= 66ft).

With some exceptions (see below), vessel beam may not exceed 80% of slip beam. Slip beam is ½ of the total water space between fingers.

For example if the water space between fingers is 60ft, each slip width would be 30ft.

The assigned vessel can use use 80% of the 30ft space which is 24ft.

Vessels over 80% of slip width pay an additional 20% on their moorage fee.

Vessels exceeding 100% of the slip width pay an additional 50% for their moorage space.

***When Inner Boat Basin is full, Commercial Vessels have preference over Recreational Vessels when vacant slips become available. Harbor office will maintain waiting list***
